Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

The response submitted on 03/01/2005 has been considered. Upon examining the application, it is found that the application imposes serious burden to examiner because claims 1-20 directs to several different species. To ensure quality service for the applicant own benefit, it is determined that a restriction should be issued. The applicant is requested to elect a single invention as follow:

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: Fig 1(a) directed to a first embodiment.

Species II: Fig 4 directed to an optical interrogation system having a pulsed optical source.

Species III: Fig 5 directed to an optical interrogation system having a multiple SOA source.

Species IV: Fig 6 directed to an optical interrogation system having a filter.

Species V: Fig 7 directed to an optical interrogation system with no SLD.

Species VI: Fig 9 directed to an optical interrogation system with no SLD and having a pulsed optical source.

Species VII: Fig 11 directed to an optical interrogation system with no SLD and having a filter.

Species VIII: Fig 12 directed to an optical interrogation system with no SLD and having a CFBG.

Species IX: Fig 15 directed to an optical interrogation system with no SLD and having a wavelength evaluation unit located before the CFBG.

Species X: Fig 18 directed to an optical interrogation system with no SLD and having a pulsed source and a CFBG.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims

readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tu T. Nguyen whose telephone number is (571) 272-2424. The examiner can normally be reached on T-F 7:30-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory Toatley Jr. can be reached on (571) 272-2800 Ext. 77. The fax
